

## Learn More About Digital Products

Rewards Club members purchasing software, digital content and product credits (for digital products) on creativememories.com (.ca) or your Consultant's personal website, will systematically earn club credit for those purchases. Additionally, club credit can be redeemed on those purchases. If digital products are purchased on the Digital Center and product credits are not utilized, your Consultant will need to manually award your club credit. Club credit cannot be redeemed on the Digital Center.
