

Lay-flat pages in Leather Premium Storybooks are double-weight, while lay-flat pages in Hardcover StoryBooks are the same weight as pages in standard Hardcover StoryBooks. A special binding is added which allows the pages of your photo book to lay flat, similar to the way that traditional Creative Memories scrapbook albums do, providing easy viewing with no page curl.

**Note:** During the checkout process, you'll have the opportunity to select the lay-flat option to be added to your Hardcover StoryBook photo books. If you're using a Hardcover StoryBook Product Credit to pay for your photo book and choose the lay-flat page option, you'll need to cover the difference in price for your order.

Lay-flat pricing options (both for US and Canada):

- 8x8 Photo Book, add \$20.00 per book
- 11x8.5 Photo Book, add \$25.00 per book
- 12x12 Photo Book, add \$40.00 per book
